

CRC (NZ) 5022, 5023, 5024, 5025, 5026 Liquid Armour CRC Industries (CRC Industries New Zealand)

Chemwatch Hazard Alert Code: 1

Chemwatch: **4552-20** Version No: **9.1**

Safety Data Sheet according to the Health and Safety at Work (Hazardous Substances) Regulations 2017

Issue Date: 01/11/2019 Print Date: 31/03/2022 S.GHS.NZL.EN

SECTION 1 Identification of the substance / mixture and of the company / undertaking

Product Identifier

| Product name | CRC (NZ) 5022, 5023, 5024, 5025, 5026 Liquid Armour |
|----------------------------------|---|
| Chemical Name | Not Applicable |
| Synonyms | surface protectant polydimethylsiloxane emulsion |
| Chemical formula | Not Applicable |
| Other means of identification | Not Available |

Relevant identified uses of the substance or mixture and uses advised against

| Relevant identified uses | Plastic and vinyl polish and protectant. |
|--------------------------|--|
|--------------------------|--|

Details of the supplier of the safety data sheet

| Registered company name | CRC Industries (CRC Industries New Zealand) |
|-------------------------|---|
| Address | 10 Highbrook Drive East Tamaki Auckland New Zealand |
| Telephone | +64 9 272 2700 |
| Fax | +64 9 274 9696 |
| Website | www.crc.co.nz |
| Email | customerservices@crc.co.nz |

Emergency telephone number

| Association / Organisation | CRC Industries (CRC Industries New Zealand) | CHEMWATCH EMERGENCY RESPONSE |
|-----------------------------------|--|------------------------------|
| Emergency telephone numbers | NZ Poisons Centre 0800 POISON (0800 764 766) | +64 800 700 112 |
| Other emergency telephone numbers | 111 (NZ Emergency Services) | +61 2 9186 1132 |

Once connected and if the message is not in your prefered language then please dial 01

SECTION 2 Hazards identification

Classification of the substance or mixture

| Classification ^[1] | Not Applicable |
|---|----------------|
| Determined by Chemwatch using GHS/HSNO criteria | Not Available |

Label elements

| Hazard pictogram(s) | Not Applicable |
|---------------------|----------------|
| Signal word | Not Applicable |
| | I |

Hazard statement(s)

Not Applicable

Not Applicable

Precautionary statement(s) Response

Not Applicable

Precautionary statement(s) Storage

Not Applicable

Precautionary statement(s) Disposal

Not Applicable

SECTION 3 Composition / information on ingredients

Substances

See section below for composition of Mixtures

Mixtures

| CAS No | %[weight] | Name |
|---------------|--|--|
| Not Available | 10-30 | silicone oligomer |
| Not Available | 1-10 | surfactants |
| Not Available | 1-10 | perfume |
| Not Available | <1 | preservative |
| 7732-18-5 | >60 | water |
| Not Available | | NOTE: Manufacturer has supplied full ingredient information to allow CHEMWATCH assessment. |
| Legend: | Legend: 1. Classified by Chemwatch; 2. Classification drawn from CCID EPA NZ; 3. Classification drawn from Regulation (EU) No 1272/2008 - Annex VI; 4. Classification drawn from C&L * EU IOELVs available | |

SECTION 4 First aid measures

Description of first aid measures

| Eye Contact | If this product comes in contact with the eyes: Wash out immediately with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Seek medical attention without delay; if pain persists or recurs seek medical attention. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel. |
|--------------|---|
| Skin Contact | If skin or hair contact occurs: Flush skin and hair with running water (and soap if available). Seek medical attention in event of irritation. |
| Inhalation | If fumes, aerosols or combustion products are inhaled remove from contaminated area. Other measures are usually unnecessary. |
| Ingestion | Immediately give a glass of water. First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor. |

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5 Firefighting measures

Extinguishing media

- There is no restriction on the type of extinguisher which may be used.
- Use extinguishing media suitable for surrounding area.

Special hazards arising from the substrate or mixture

| Fire Incompatibility | None known. |
|-------------------------|-------------|
| | |
| Advice for firefighters | |
| | |

| Fire Fighting | Alert Fire Brigade and tell them location and nature of hazard. Wear breathing apparatus plus protective gloves in the event of a fire. Prevent, by any means available, spillage from entering drains or water courses. Use fire fighting procedures suitable for surrounding area. |
|-----------------------|---|
| Fire/Explosion Hazard | Non combustible. Not considered a significant fire risk, however containers may burn. |

Personal precautions, protective equipment and emergency procedures

See section 8

Environmental precautions

See section 12

Methods and material for containment and cleaning up

| Minor Spills | Slippery when spilt. Clean up all spills immediately. Avoid breathing vapours and contact with skin and eyes. Control personal contact with the substance, by using protective equipment. Contain and absorb spill with sand, earth, inert material or vermiculite. |
|--------------|---|
| Major Spills | Slippery when spilt. Moderate hazard. Clear area of personnel and move upwind. Alert Fire Brigade and tell them location and nature of hazard. Wear breathing apparatus plus protective gloves. |

Personal Protective Equipment advice is contained in Section 8 of the SDS.

SECTION 7 Handling and storage

Precautions for safe handling

| Safe handling | Avoid all personal contact, including inhalation. Wear protective clothing when risk of exposure occurs. Use in a well-ventilated area. Prevent concentration in hollows and sumps. |
|-------------------|--|
| Other information | Store in original containers. Keep containers securely sealed. Store in a cool, dry, well-ventilated area. Store away from incompatible materials and foodstuff containers. |

Conditions for safe storage, including any incompatibilities

| Suitable container | Polyethylene or polypropylene container. Packing as recommended by manufacturer. Check all containers are clearly labelled and free from leaks. | |
|-------------------------|---|--|
| Storage incompatibility | None known | |

SECTION 8 Exposure controls / personal protection

Control parameters

Occupational Exposure Limits (OEL)

INGREDIENT DATA

Not Available

Emergency Limits

| Ingredient | TEEL-1 | TEEL-2 | | TEEL-3 |
|--|---------------|---------------|---------------|---------------|
| CRC (NZ) 5022, 5023, 5024, 5025, 5026 Liquid Armour | Not Available | Not Available | | Not Available |
| Ingredient | Original IDLH | | Revised IDLH | |
| water | Not Available | | Not Available | |

Exposure controls

| Appropriate engineering controls | Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection. The basic types of engineering controls are: Process controls which involve changing the way a job activity or process is done to reduce the risk. Enclosure and/or isolation of emission source which keeps a selected hazard "physically" away from the worker and ventilation that strategically "adds" and "removes" air in the work environment. |
|-------------------------------------|--|
|-------------------------------------|--|

| Eye and face protection | Safety glasses with side shields. Chemical goggles. Contact lenses may pose a special hazard; soft contact lenses may absorb and concentrate irritants. A written policy document, describing the wearing of lenses or restrictions on use, should be created for each workplace or task. |
|-------------------------|---|
| Skin protection | See Hand protection below |
| Hands/feet protection | The selection of suitable gloves does not only depend on the material, but also on further marks of quality which vary from manufacturer to manufacturer. Where the chemical is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. The exact break through time for substances has to be obtained from the manufacturer of the protective gloves and has to be observed when making a final choice. Personal hygiene is a key element of effective hand care. • Wear chemical protective gloves, e.g. PVC. • Wear safety footwear or safety gumboots, e.g. Rubber |
| Body protection | See Other protection below |
| Other protection | Overalls. P.V.C apron. Barrier cream. Skin cleansing cream. |

Recommended material(s)

GLOVE SELECTION INDEX

Glove selection is based on a modified presentation of the:

"Forsberg Clothing Performance Index".

The effect(s) of the following substance(s) are taken into account in the *computer-generated* selection:

CRC (NZ) 5022, 5023, 5024, 5025, 5026 Liquid Armour

| Material | CPI |
|----------------|-----|
| BUTYL | A |
| NEOPRENE | A |
| VITON | A |
| NATURAL RUBBER | С |
| PVA | C |

* CPI - Chemwatch Performance Index

A: Best Selection

B: Satisfactory; may degrade after 4 hours continuous immersion

C: Poor to Dangerous Choice for other than short term immersion

NOTE: As a series of factors will influence the actual performance of the glove, a final selection must be based on detailed observation. -

* Where the glove is to be used on a short term, casual or infrequent basis, factors such as "feel" or convenience (e.g. disposability), may dictate a choice of gloves which might otherwise be unsuitable following long-term or frequent use. A qualified practitioner should be consulted.

SECTION 9 Physical and chemical properties

Information on basic physical and chemical properties

| Appearance | Opaque white liquid emulsion with a pleasant odour; miscible with water. | | | | |
|---|--|--|----------------|--|--|
| Physical state | Liquid | Liquid Relative density (Water = 1.02 | | | |
| Odour | Not Available | Partition coefficient n-octanol / water | Not Available | | |
| Odour threshold | Not Available | Auto-ignition temperature (°C) | Not Available | | |
| pH (as supplied) | Not Available | Decomposition temperature | Not Available | | |
| Melting point / freezing point (°C) | 0 | Viscosity (cSt) | Not Available | | |
| Initial boiling point and boiling range (°C) | 100 | Molecular weight (g/mol) | Not Applicable | | |
| Flash point (°C) | Not Applicable | Taste | Not Available | | |
| Evaporation rate | As for water | Explosive properties | Not Available | | |
| Flammability | Not Applicable | Oxidising properties | Not Available | | |

| Upper Explosive Limit (%) | Not Applicable | Surface Tension (dyn/cm or mN/m) | Not Available |
|---------------------------|----------------|--------------------------------------|---------------|
| Lower Explosive Limit (%) | Not Applicable | Volatile Component (%vol) | 80 |
| Vapour pressure (kPa) | As for water | Gas group | Not Available |
| Solubility in water | Miscible | pH as a solution (Not Available%) | Not Available |
| Vapour density (Air = 1) | As for water | VOC g/L | Not Available |

SECTION 10 Stability and reactivity

| Reactivity | See section 7 | |
|-------------------------------------|--|--|
| Chemical stability | Unstable in the presence of incompatible materials. Product is considered stable. Hazardous polymerisation will not occur. | |
| Possibility of hazardous reactions | See section 7 | |
| Conditions to avoid | e section 7 | |
| Incompatible materials | See section 7 | |
| Hazardous decomposition products | See section 5 | |

SECTION 11 Toxicological information

Information on toxicological effects

| Inhaled | The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting. Inhalation hazard is increased at higher temperatures. |
|--------------|---|
| Ingestion | The material has NOT been classified by EC Directives or other classification systems as "harmful by ingestion". This is because of the lack of corroborating animal or human evidence. |
| Skin Contact | The material is not thought to produce adverse health effects or skin irritation following contact (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable gloves be used in an occupational setting. |
| Eye | The liquid may produce eye discomfort causing temporary smarting and blinking. |
| Chronic | Long-term exposure to the product is not thought to produce chronic effects adverse to the health (as classified by EC Directives using animal models); nevertheless exposure by all routes should be minimised as a matter of course. |

| CRC (NZ) 5022, 5023, 5024, | ΤΟΧΙΟΙΤΥ | IRRITATION | |

| | No Data available for all ingredients |

SECTION 13 Disposal considerations

Waste treatment methods

| | Legislation addressing waste disposal requirements may differ by country, state and/ or territory. Each user must refer to laws |
|---------------------|---|
| | operating in their area. In some areas, certain wastes must be tracked. |
| | A Hierarchy of Controls seems to be common - the user should investigate: |
| | ▶ Reduction |
| | ▶ Reuse |
| | ▶ Recycling |
| | Disposal (if all else fails) |
| | This material may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use. |
| Product / Packaging | DO NOT allow wash water from cleaning or process equipment to enter drains. |
| disposal | It may be necessary to collect all wash water for treatment before disposal. |
| | In all cases disposal to sewer may be subject to local laws and regulations and these should be considered first. |
| | Where in doubt contact the responsible authority. |
| | Recycle wherever possible. |
| | Consult manufacturer for recycling options or consult local or regional waste management authority for disposal if no suitable |
| | treatment or disposal facility can be identified. |
| | Dispose of by: burial in a land-fill specifically licensed to accept chemical and / or pharmaceutical wastes or incineration in a |
| | licensed apparatus (after admixture with suitable combustible material). |
| | |
| | Decontaminate empty containers. |

Ensure that the hazardous substance is disposed in accordance with the Hazardous Substances (Disposal) Notice 2017

Disposal Requirements

Not applicable as substance/ material is non hazardous.

SECTION 14 Transport information

Labels Required

| Marine Pollutant | NO |
|------------------|----------------|
| HAZCHEM | Not Applicable |

Land transport (UN): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

Air transport (ICAO-IATA / DGR): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

Sea transport (IMDG-Code / GGVSee): NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

Transport in bulk according to Annex II of MARPOL and the IBC code

Not Applicable

Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code

| Product name | Group |
|--------------|---------------|
| water | Not Available |

Transport in bulk in accordance with the ICG Code

| Product name | Ship Type |
|--------------|---------------|
| water | Not Available |

SECTION 15 Regulatory information

Safety, health and environmental regulations / legislation specific for the substance or mixture

This substance is to be managed using the conditions specified in an applicable Group Standard

| HSR Number | Group Standard |
|----------------|----------------|
| Not Applicable | Not Applicable |

Please refer to Section 8 of the SDS for any applicable tolerable exposure limit or Section 12 for environmental exposure limit.

water is found on the following regulatory lists

New Zealand Inventory of Chemicals (NZIoC)

Hazardous Substance Location

Subject to the Health and Safety at Work (Hazardous Substances) Regulations 2017.

| Hazard Class | Quantities |
|----------------|----------------|
| Not Applicable | Not Applicable |

Certified Handler

Subject to Part 4 of the Health and Safety at Work (Hazardous Substances) Regulations 2017.

| Class of substance | Quantities |

National Inventory Status

| National Inventory | Status |
|--|------------|
| Australia - AIIC / Australia Non-Industrial Use | Yes |
| Canada - DSL | Yes |
| Canada - NDSL | No (water) |
| China - IECSC | Yes |
| Europe - EINEC / ELINCS / NLP | Yes |
| Japan - ENCS | Yes |
| Korea - KECI | Yes |
| New Zealand - NZIoC | Yes |
| Philippines - PICCS | Yes |
| USA - TSCA | Yes |

| National Inventory | Status | | |
|--------------------|--|--|--|
| Taiwan - TCSI | Yes | | |
| Mexico - INSQ | Yes | | |
| Vietnam - NCI | Yes | | |
| Russia - FBEPH | Yes | | |
| Legend: | Yes = All CAS declared ingredients are on the inventory No = One or more of the CAS listed ingredients are not on the inventory. These ingredients may be exempt or will require registration. | | |

SECTION 16 Other information

| Revision Date | 01/11/2019 |
|---------------|------------|
| Initial Date | 28/03/2004 |

SDS Version Summary

| Version | Date of Update | Sections Updated |
|---------|----------------|--|
| 8.1 | 29/08/2017 | Supplier Information, Name |
| 9.1 | 01/11/2019 | One-off system update. NOTE: This may or may not change the GHS classification |

Other information

Classification of the preparation and its individual components has drawn on official and authoritative sources as well as independent review by the Chemwatch Classification committee using available literature references.

The SDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.
